# KNOW ABOUT AUTOMATION IN ELECTRICAL & FIRE SAFETY AUDITS

Fire accidents originating from electrical faults are unfortunately occurring far too often. Fully trained, certified experts based in our strategically located offices around the country offer inspection services that go beyond compliance. Aided by technology from our patented application "JEF Sameeksha" and the "Auditor's Eye" of our trained engineers, we ensure that every equipment and the total system is inspected/analyzed from all perspectives for safety and compliance.
